Dear Madam/Sir:

I am writing to apply for a B-1 visa to allow me to travel to the Thomas Jefferson National Accelerator Facility (JLab) in Newport News, Virginia. I am currently a Master of Science student in the Department of Physics at the University of Regina, Canada. My research is conducted under the supervision of Dr. Garth Huber, who has over 20 years of research experience at JLab. For research purposes, I need to attend 2-3 collaboration meetings per year and specialized workshop (2-3 times per year) through to the end of 2013. All of my expenses will be covered by research grant funds provided to the University of Regina by the Government of Canada, and my insurance is covered by JLab.

Previously, I was at Pennsylvania State University for a one year exchange as a student from the University of Kent, U.K.

In order to support my application, I have enclosed the following documentation for your review:

1. Invitation Letter from the JLab Hall C Group Leader
2. Endorsement Letter from Dr. Garth Huber
3. Position Appointment Letter and Tuition Payment Record from University of Regina
4. Canadian Student Visa and Study Permit
5. Curriculum Vitae
6. Statement of My Research Activity
7. Transcripts from Pennsylvania State University and the University of Kent
8. Expired US Student Visa from 2009

Many thanks for your consideration, and I am looking forward to hearing from you.

Yours Faithfully,

Wenliang Li
